

Mining: Job Vacancy

PT. DNX Indonesia; Technical Service

DNX is one of the leading suppliers of commercial explosives and develops, produces and distributes a full range of explosives products and services.

We are subsidiary of Dyno Nobel Asia Pacific Limited, member of Incitec Pivot Limited. The company is part of a large multinational organization that has a successful history of over twenty years operating in Indonesia. We provide product and services for a number of reputable Mining Contractors and Mining Owners all over Indonesia.

TECHNICAL SERVICE

The Requirements:

- Bachelor's Degree in Mining Engineering
- At least 3 years' experience as Engineer in mining services or hard rock experience is preferred
- Good communication skills, in English and Bahasa Indonesia, as the incumbent is required to communicate with clients.
- Computer literacy with reporting experience.
- Hold blaster competency (KJL II)
- Hold a Driver's license
- The incumbent will be required to travel and work in a roster system.

Core Accountabilities

Essential Functions:

- Implement and manage agreed technical support services to customers in the Indonesia area as per the contractual agreements.
- Identify the drill and blast improvement projects in key customer's mine sites and solutions to improve them. Manage their implementation by delivering to the agreed outcomes.
- Identify the opportunities to implement Value in Use products such as Dyno Nobel bulk delivery systems and bulk emulsion technology at Key customer sites and demonstrate their value through practical measurements.
- Develop strong and long term relationships with key mine personnel to enhance Dyno Nobel's technical credibility and capability.
- To act responsibly and safely, and to adhere to DNAP policies, procedures and standards for HSEQ.
- Support and promote dnx initiation systems and bulk products and product literature.
- To manage the Dyno Nobel CDR Process and Ideation Process in Indonesia.
- Actively coordinate the technical training program for internal and external customers.
